NOTICE OF SALE

Of three-eighths of a share or so much thereof, as may be necessary, of the capital stock of the Orr Extension Ditch Company, a corporation duly organized under the laws of the State of Nevada, embraced in stock certificate No. 44 (forty-four) issued to Louis Dean. Such sale is to be made of such three-eighths share of stock, or as much thereof as may be necessary to pay an assessment of two dollars per share on all shares of stock in said company, all of which have been paid except on said above described three-eighths share.

Said assessment was duly levied by the trustees of said company on the 15th day of April, 1901, at the annual meeting of the stockholders of said company, to pay for repairs and keeping in repair the ditch of said company in 1901.

Notice of such assessment, made payable on or before the 15th day of May, 1901, was duly published in the Gazette, a newspaper published daily in Reno, Washoe county, State of Nevada (in which county the said company's ditch property is situated) for the period of four weeks before being payable as aforesaid. That the assessment on said stock, and none of it, has been paid; wherefore notice is hereby given that in consequence of such default in paying such assessment, so much of said share of said stock as are necessary to pay such assessment and all costs of advertising and selling the same, will be sold at public auction to such person or persons as will pay said assessment and such expenses for the smallest number of such shares or portions thereof.

Such sale will be made at front door of the Bank of Nevada between the hours of ten and twelve o'clock, a. m. on the 12th day of July, A. D. 1901, by the Secretary of said company by order of its Trustees.

W. E. LEMMON, Secretary.

By R. S. OSBORN, Deputy.

FOUGHT FOR HIS LIFE.

"My father and sister both died of Consumption," writes J. T. Wea herman, of Wyandotte, Mich. "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of pneumonia left an obstinate cough and a very severe lung trouble which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infallible for colic, croup, whooping cough, for Coughs, Colds, and all Throat and Lung trouble. Little bottles free. Guaranteed bottles 50c and \$1. Sold by S. J. Hodgkinson.

FRAUDS ON GOVERNMENT PROPERTY.

Knowledge of frauds in the public service, more particularly in the military department, comes thick and fast. Supplies of all kinds except powder and shot seem to have been taken and disposed of in a fraudulent manner. It is claimed that millions of dollars in value have been stolen and disposed of at prices which must have imparted knowledge to those who purchased the goods that there was dishonesty connected with the possession of the seller of the goods. But the inducement to make money to many people is such that an opportunity to secure it upon any terms is never permitted to pass. A receiver of stolen goods with knowledge that they were stolen is as great a crime and should be as severely punished as the crime of the man who stole the property and carried it away to the receiver of the stolen goods. When goods are received that have upon them Government marks, in the form of labels, there is notice upon the goods that dishonesty is connected with the possession of the property by private persons. These frauds will be looked into by proper authority and the guilty parties will be arrested as they should be and punished. There is no occasion to accuse the administration with a failure of duty in these frauds and thefts, as they will make an appearance at any time under any administration when opportunity is given to those who are dishonest, to help themselves to Government property.

THE BUTCHER STRIKE IS ON.

The butcher's strike has made an appearance in San Francisco, and the people are engaged in discussing the inconvenience there is connected with it. The good citizen and his family are at the mercy, in at least one matter, of the butcher boys. The old bagdadocio style of the New York butcher boy, "If you don't believe I am a butcher, just smell of my boots, may have a meaning in a way not refuted in the least by those who were scarcely aware that butcher boys had any special function in life to be regarded as worthy of notice. The good house wife who telephoned to the market for the meats required for the family during the day is engaged in carrying her basket to the market to wait for her turn to get such meat for family use as there is at hand. These strikes shake up society in a way that leads to thought upon our dependent condition when we are not thinking upon our dependence on the butcher boys, whose office it is to provide for a small remuneration, much of the food we eat. The boys who arise at three o'clock to supply a city—we mean a world with much of its food, are deserving of consideration and one of the ways to secure consideration and notice is to strike. The strike of the butcher boys places reminders of high consideration where it is not pleasant to be when they have to acknowledge their dependence on the butcher boys to procure something to eat.

THERE SHOULD BE EFFECTIVE WORK.

The question of Chinese labor is agitating the country and more particularly that part of it on the Pacific Coast as the time approaches which will close the term of exclusion under the law of Congress. The act will by its provisions cease to exclude next year, when the coast will be flooded by Mongols, provided there is not a re-enactment, or renewal to exclusion. There is much opposition in the east in certain localities to continuing in operation provisions intended to exclude the Asiatic from the United States. The opposition does not come from labor or its friends, as it is well known that exclusion is a necessity

SYRUP OF FIGS

NEVER IMITATED—QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the California Fig Syrup Co. only. In order to get the beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

o absolute for the protection of labor hat it has been removed from the field of discussion as a problem is up or solution. There is one phase of the question remaining which has the form of a friend or of an enemy to labor. The ethics included in exclusion, have been settled in its favor and there is not anything remaining to be discussed except it may be the most effective manner to exclude, which will furnish the more active form the question will be presented to the friends of exclusion for the protection of white labor. The Asiatic will continue to furnish problems for centuries which will demand the highest intelligence of statesmen and philanthropists to solve, through a provision of means for the protection of the superior race, without destroying the more inferior. The doctrine included in exclusion is not new to the mongol Asiatic. It has been invoked by him for many centuries and is still insisted upon by the Mongolian race. But the time has come when purely physical barriers will not answer the purpose of an advancing civilization. Purely physical barriers will have to be largely substituted by the enforcement of rules more humane than the Mongol rule has been or is at the present time, but reffective to exclude as the Mongol formed rules for exclusion must be a rule has been, for all purposes except for the purposes of commerce and education.

CARSON'S CARNIVAL.

Several of the Carnival Committees held meetings last evening and everything is shaping to the end of the greatest celebration ever held in Nevada.

The advertising matter has nearly all arrived and will appear on the boards this week. It consists of colored circular posters from a single sheet to the full size and is very attractive. It will be put up in all parts of Nevada and near California points, and will doubtless succeed in the mission for which it is sent forth.

The Committee on Mardi Gras report that this feature of the big celebration will be as successful as any ever held on the Pacific Coast. A large number of floats are being constructed especially for this parade, and it might be out of place to give the general rules now, that all may be prepared and no misunderstanding may arise.

Everybody on the streets from 6 o'clock until 9 of Saturday, the 6th day of July must be in mask. No exception will be made to this rule and the penalty for disobedience will be severe, speedy and sure.

The parade itself will be a side-splitting affair and the illuminations will be superb.

Rex and his better half will appear a due time and will lead the cortège in the masquerade ball, which will take place at 9 o'clock.

To accommodate the large crowd that will be in attendance the Opera House and Armory Hall have both been engaged and each will have its own orchestra and dancers. Tickets will be good to either and both places. If possible a third hall will be secured and all may have an opportunity to trip.

It is doubtful if even with these concessions the public can be fully accommodated but the committee promises to make arrangements that none may be left in the cold, cold world while the fun is on.

TELEGRAPHIC.

A SERIOUS ACCIDENT.

Special to the Journal.]
NEW YORK, June 15.—The old wooden ferry Northfield was run down and sunk late yesterday afternoon by the steel ferry Meuch Chunk. Over one thousand persons were on the Northfield and a wild panic ensued. Scores of people jumped into the water. Boats of all kinds hastened to the rescue and it is not known if any were drowned. One man says over a score perished.

TRANSPORT CAPSIZES.

Special to the Journal.]
NEW YORK, June 15.—Transport ngalls capsized in the navy yard dock at Brooklyn yesterday. Two persons were crushed to death and over forty injured.

AN AMERICAN EXECUTED.

Special to the Journal.]
EL PASO, Tex., June 15.—An American named Boca, who recently murdered an old couple in Mexico was executed in the prison at Chihuahua yesterday. He was hanged against a stone wall at daylight and shot by soldiers.

CURRENT PARAGRAPHS.

A San Joaquin county couple traded their girl baby for a span of mules. It seems safe to say that the child is better off.

Having gotten rid of the five pillars, all Modoc county now needs in order to become a pretty place to live is to get rid of their fifty murderers.

In order to make assurance treble, a St. Paul couple the other evening saw fit to be married not once, but five times. They will probably be satisfied with one divorce.

Someone accused another of stealing a hog in Houston, Texas, yesterday, and the result was a shooting scrape which cost three men their lives. Pork eaters to come considerably higher than humans in Texas.

The Parisian Duellists who fought 40 hours and a half yesterday without either being scratched, resumed their battle this morning, and one of them received quite a serious wound. Accidents will happen sometimes.

As a means of bringing about a dissolution of partnership the Susanville man of having one of the parties in interest shoot the other is open to some objections, but certainly cannot be criticised on the ground of any lack of prompt effectiveness.

Senator Clark of Montana is to give his daughter-in-law a wedding gift of a million dollars. Mr. Clark may be a rather queer sort of a Senator—people have said so, at least—but there is no question as to his being a howling success as a papa-in-law.

J. Jermont Morgan is now said to be planning a bank which shall control all the money business of both England and America. The general scheme of the world's existence seems to be rapidly simmering down to one proposition—which its name is Morgan.

Count Castellane became furiously indignant at Rouen yesterday because the sexton of the cathedral refused him admission in bicycle dress. The bishop needn't mind. He may be kept out of a cathedral but it's only a question of time when he will get into a lunatic asylum.

A British army official argues against big men for soldiers and in favor of having them as business men. It may be suggested, though if he is thinking of South Africa, that it will have to be a very small soldier indeed who won't serve a Boer marksman as a pot-shot target.

ELEGANT POSTERS.

Yesterday the posters for this Carson City Carnival and Street Fair reached that city. They are without doubt the finest lot ever shown there. They are mostly on a big scale, covering nearly a whole board. They represent everything from the Mardi Gras on the Midway, and everyone who has seen them say that Carson looks better on the posters than she does on the map.

They will be posted today when transients and some of the doubting people will realize that Carson is to have a Carnival that will make all other shows look like thirty cents apiece.

Reports from the surrounding vicinity go to show that the recent cold spell has raised havoc with the growing crops and orchards, and in several localities the alfalfa have been frozen to the ground.

President J. E. Stubbs of the State University will deliver the commencement address for the graduating class of the Austin high school.

PROPOSALS FOR SUPPLIES.

Supplies—Sealed proposals for furnishing supplies to be delivered at Nevada Hospital for Mental Diseases at Reno, Nevada, from July 16, 1901, to July 1, 1902 will be received up to June 27, 1901. For list of articles to be furnished apply to Dr. H. W. Patterson.

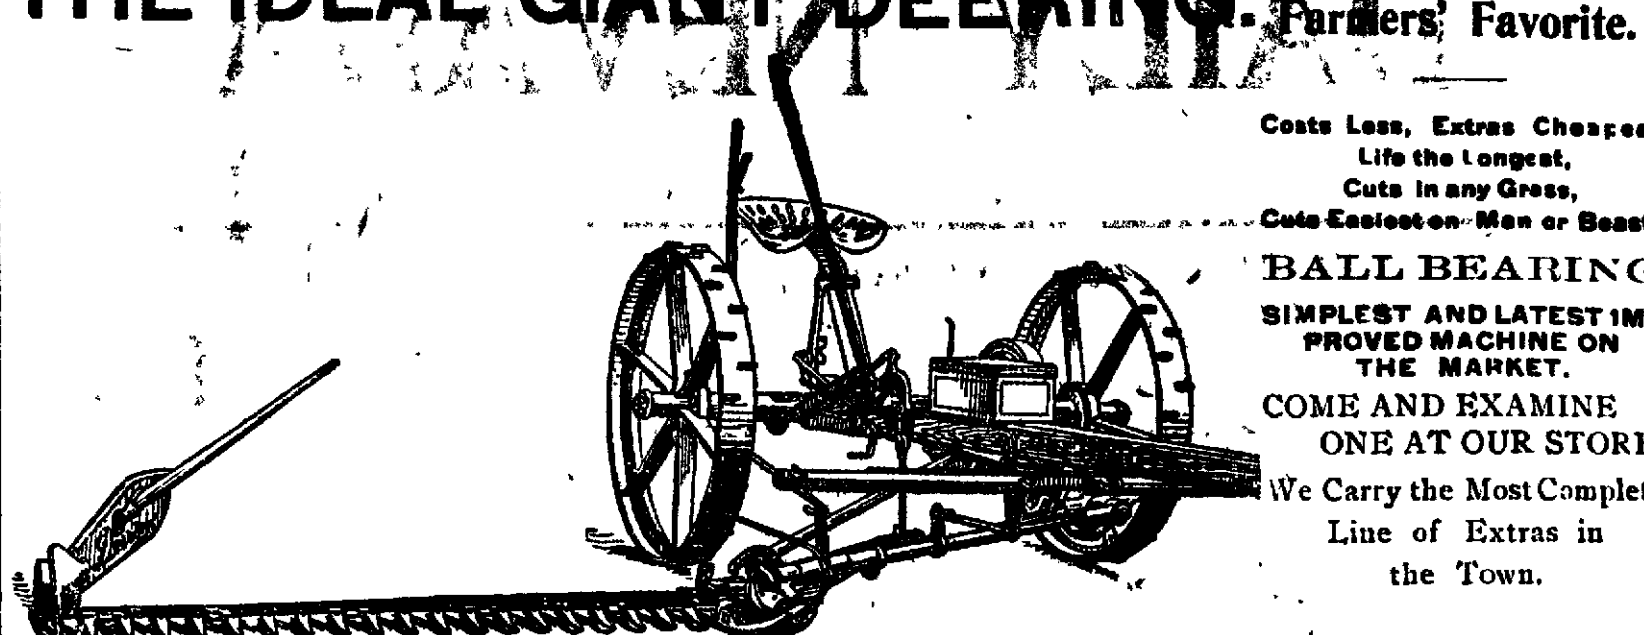

Wood—Eight hundred cords of wood to be delivered in Reno, Nevada. The quality to be good limb and split pine, sound and well seasoned.

Beef Cattle—Beef cattle to be delivered at the Nevada Hospital for Mental Diseases, Reno, Nevada, in such numbers and at such times as the Superintendent may desire.

Sealed bids will be received for "Sunolles," "Wood," and "Beef Cattle." Bids to be directed to Secretary of Board of Commissioners for care of Indigent Insane, Carson City, Nevada, up to June 27, 1901, at 1 o'clock p. m., at which time same will be opened and considered. The Board reserves the right to reject any and all bids.

Envelopes enclosing bids should be marked "Proposals for supplies, wood or cattle" as the case may be. By order of the Board. F. L. WILDES, Secretary.

Baby's Coming

McDonald, Ga. July 15, 1901.
I advise every suffering woman to take Wine of Cardui. While I was going with my other children I was compelled to stay in bed for days at a time, but this time I have taken Wine of Cardui and I feel like a new woman. I have not been able to do all my housework without any trouble. I am expecting every day to be crowned. My husband thinks Wine of Cardui is the best medicine in the world. He takes a dose of Cardui's Black Draught every night and gives some to the children. He has not lost a day from work this year. He tells his friends about your wonderful medicines and I tell my lady friends to use your Wine of Cardui.

WINE OF CARDUI

There are thousands of women who shrink in terror at the thought of the baby's coming. But childbirth is one of the workings of Nature and it was not intended to imply torture and agony to the heroic mothers of the race. The woman who suffers torture during pregnancy and at childbirth has usually, by some individual error, injured the organs which make her a woman.

Irregularities lead to ovarian pains, falling of the womb and leucorrhoea, and the period of pregnancy is necessarily distressing under these conditions. Wine of Cardui will regulate the menstrual function perfectly and eventually make the generative organs strong and healthy. Pregnancy and childbirth have no terrors for the woman who takes this pure Wine. A strong healthy woman will bring her precious burden to maturity with little or no pain. A healthy woman need not fear childbirth. Wine of Cardui completely cures all these troubles familiarly known as "female diseases" and cures the excessive generative organs for pregnancy and childbirth. It will save any mother much pain and suffering. All druggists sell \$1.00 bottles.

ELECTRIC IRRIGATION

Mountain Waters Used in Generating Power and Then Upon Irrigable Lands.

Irrigation by electrical power promises to work a revolution in many sections of the arid West. The streams are to be used in the mountains to generate power, and the power is to be transmitted to the fields below for pumping water on the land. Mr. Frederick Newell, the hydrographer of the geological survey, has just returned to his office from a surveying tour of the West, and he states that this power of development will add immense and, at the present time, unknown areas to the irrigable land of the arid region, while at the same time the water supply under the system will be certain and most satisfactory to the irrigator. The feasibility of transmission of electrical power for not 20 or 25 miles, but for 150 or 180 miles has been proved, says Mr. Newell, "for this new and enormous additional development to the hitherto supposed resources of the arid West."

"The method by which additional area can be brought under irrigation with a given visible supply of water, is this: We will suppose that a stream flowing from the mountains down into large broad valley or a plain a hundred miles below. The water from this river is sufficient to irrigate only one-half or one-third of the plain; all the rest is, then, dead land. There is, however, an underflow, beneath the remaining, or 'dead' land, which can be forced at a depth of from 20 to 30 feet. This furnishes an inexhaustible supply of good water for irrigation and it is gotten economically to the surface. The great bulk of the lowlands of the valleys adjacent to the mountains or the Sierra Nevada are underlain with this water—a practically inexhaustible supply against pumping.

"Fuel for pumping, however, is expensive, and it does not seem practicable to get the water onto the land except at a prohibitory cost. But here is where the power can be brought into operation. Storage reservoirs can be constructed way off in the mountains in such manner as to utilize the power of the river or its fall to the full extent, and from this plant or plants the power generated can be transmitted down the valley to the twenty or forty acre irrigated farms, where it can be applied to an electric motor operating a centrifugal pump lifting water upon the land required. This should be the ideal irrigation system. The farmer starts his motor and the water comes when he has enough, he shuts it off. His water supply is right under him in great abundance, and he does not have to jump on his horse and tear off twenty miles to a canal headgate to find out why his water does not come down the ditch.

"But is this a theoretically possible development, Mr. Newell, or is it something which has been actually tested?"

"The practicability of this development has already been demonstrated by the number of plants already in operation in San Joaquin Valley. It is claimed that water is actually being pumped at a less cost than it is supplied by gravity ditches. There are many opportunities not only in California, but also in Colorado, Utah, and other states, where power plants can be economically installed in the canyons, and the water from them used to irrigate the fields. The power from these plants can be conducted out to points beyond reach of the canals, and employed in lifting the underground waters to the surface. The ultimate development of this class of work must rest largely upon water conservation, the holding back of the floods of the spring to supply a continuous discharge during the summer, keeping the power plants in operation, as well as furnishing water for the ditches.

"This complete conversation must rest largely upon the government completing its work in the forest reserves, not only in protecting the growing timber, but also by constructing large reservoirs where the conditions are favorable. But such work the largest possible use can be made of the irregularly distributed water supply, and the moisture which exists beneath the surface and which now is practically useless, can be recovered and made to assist in the creation of thousands of homes upon the public lands.

AT THE U. OF N.

The University is almost as much a dead world as the moon is said to be. A half dozen students all working on the grounds. The students, living in Reno, hope to bring about a dance or two, during vacation.

Dr. Stubbs has the beginnings of a fine lawn about his residence, well under way, and hopes by October or November to have it a thing to command admiration.

SUMMERFIELD ARRESTED

Unlawful Killing of Game Is the Charge He Will Have to Answer to.

The following complaint was today sworn to before His Honor Judge Linn, which fully explains itself:

"The State of Nevada, plaintiff vs. Sardis Summerfield, defendant. James Merklinger, Washoe county's Fish and Game Warden, being duly sworn, complains and says, that one, Sardis Summerfield of Reno, Washoe county, Nevada, on or about the 11th day of June, 1901, committed the crime of misdemeanor, to-wit: That on the time and place aforesaid, defendant did willfully and unlawfully kill and have in his possession certain species of wild game, to-wit, insectivorous birds, namely, two killdeer plover, and one Arkansas tyrant fly-catcher. All of which is contrary to the form of statutes in such cases made and provided for the peace and dignity of the State of Nevada.

JAMES MERKLINGER,"

Subscribed and sworn to before me, this 14th day of June, A. D. 1901.

J. J. LINN,

Justice of the Peace.

Mr. Summerfield, the defendant, appeared in court and pleaded "not guilty," and demanded a jury trial, and the Judge set the case for trial on June 20, at 10 a. m.

Mr. Summerfield has brought a counter charge against the Game Warden of petit larceny, for taking the above mentioned game from his (Summerfield's) pocket. The hearing of this case is set for Saturday, June 23d, at 1 o'clock p. m.

The Journal reporter called upon Mr. Merklinger to substantiate the above, and that gentleman did so and said that he was determined to protect the law to the best of his ability and would surely arrest and vigorously prosecute any one, no matter what their standing. He has been elected to attend to a duty and will do so to the very best of his ability. "I do not like to have to arrest anyone," said Mr. Merklinger, "but if they violate the fish and game laws, or either of them, they must stand the consequences." As to my taking the game from Mr. Summerfield's pocket, I must say that he is mistaken, as the birds in question were handed to me by Mr. Summerfield and a friend of his, who was present at the time.

PERSONAL MENTION

Gossip About the Migrating Public as They Come and Go

Mrs. M. E. Acre of Austin was an arrival last evening on the westbound train. She is a delegate to the Grand Lodge of Rebekahs, and while here will be the guest of Mrs. F. P. Dann.

W. McGreor, a prominent mining man of San Francisco is registered at the Riverside. He will depart for Central American in a few days to look after his mining interests in that section, and will remain there two or three months and return here to further inspect the mines of this section.

Dr. Campbell of Pioche is in Reno on lodge business.

C. F. Bliss of Hobart Mills spent yesterday in Reno.

C. H. E. Hardin of Willow Creek was in town yesterday, a guest at the Riverside.

Mary B. Cooper of Salt Lake City spent yesterday in Reno inspecting the town. She will leave this morning for Carson and Virginia and Lake Tahoe.

Hon. Geo. F. Osborn, a prominent attorney of San Francisco is a guest at the Riverside.

Clifford J. Rollins returned from San Francisco last evening in company with his sister, Miss Anna Rollins, who, with her mother, Mrs. Kelley, will spend two or three weeks visiting in Reno, the guests of Mr. and Mrs. Geo. F. Rollins.

RICH PROSPECT.

George Wedekind made a pleasant visit to the Journal office today, and in conversation with the localizer said that he had a claim near the Reno Star, that he thought would far surpass anything yet discovered in Wedekind district. As yet, but little work has been done on the claim, but geologists made run into the thousands. Mr. Wedekind says he will put a force of men to work shortly to develop the mine.

FRANK SMITH IMPROVING.

Frank Smith, a freshman in the mining course at the University, who has been dangerously ill for four weeks, with typhoid fever, is unmistakably on the road to recovery.

He is still very weak and it will be a long time before he will be able to leave his bed.

There is no small factor in the recovery of any patient.

His sister, Mrs. Allen of Reno, will remain with the family as long as may be necessary.

MRS. RICHARDSON'S CONDITION.

Mrs. C. A. Richardson is still in a precarious condition and her son, Edward, who is in Salt Lake has been sent for. Mrs. D. Warner, a friend of the family will come from Carson City to lend her services to the sick friend. The Journal and the many friends of Mrs. Richardson hope for her recovery.

THE CLUB SMOKER

The Wheelmen's Entertainment Last Night Voted a G and Success.

The entertainment committee of the Reno Wheelmen's Club last evening gave their second entertainment, and like the first, was a success, both socially and financially. Will Maxwell acted as Master of Ceremonies and made a few remarks thanking those present for their liberal patronage.

The first number was a song by William Blair which was well received. Lester Merrill then rendered a song, assisted by the following chorus, W. L. Hewitt, W. Lumsford, W. Blair, J. B. Switzer and Fred White. This number was the gem of the evening, and received an enthusiastic encore. James Hart and Charles Gritton then donned the "mits" for a 3-round bout. The contestants went at their work as though they meant business, and some hard blows were landed. In the second round Hart got strong and knocked his opponent down, but not out by any means, and Charley was up and doing in a jiffy. In the last round Hart repeatedly landed and at the end was given the decision.

An instrumental duet, violin and piano, by Fred and Frank Julien, was well rendered and an encore responded to. A song by Josiah Lachman was the next on the program. This was one of the "events" of the evening. By special request he sang "Break the News to Mother," and when he finished amid deepest silence not a dry eye could be seen in the audience. An encore brought forth that beautiful and touching song, "A Mother's Plea for Her Son."

King Ryan's Wheelmen Sousa band was alone worth the price of admission, and the waltz band "played" some of the latest airs would surely have made Sousa smile.

The 3-round bout between Ed. Lunsford and Barney Frazier was a fine exhibition of the manly art of self defense, and some very clever work was done by Lunsford in the way of foot work and dodging. The honors of the "go" were about evenly divided.

A vocal solo by Lester Merrill was well rendered. In his usual "good style," Keddle gave a short talk upon racism and stated that much encouragement could be given the riders by the presence of our citizens at the track while the boys are training. A recitation by R. Julien, a piano solo by Frank Julien and a recitation by Richard Ryland were good numbers and received their share of applause. The harmonica duet by Fred Hewitt and P. Upson was one of the very best numbers on the program and was loudly applauded. The 3-round bout between Will Lumsford and Will Lumsford was one of the best of the evening. It was lively from start to finish. The decision was given to Perry.

King Ryan made a few closing remarks, and the audience filed out as Joseph Lachman took the stand for a local solo.

ABOUT MINE AND MINER

One shipment from Eureka last week aggregated 124 tons and from White Pine forty-seven tons.

Among the new strikes the most recent locality is situated about 200 miles south of Point Barrow, Alaska. It is reported immensely rich, but the reports have not yet been verified.

The Pioche Record says Robert S. Seibert of Los Angeles, who now controls the renowned Potomac mine in the southern part of Lincoln county, has leased and bonded the property to C. M. Thayer for \$100,000.

George F. Murphy, the Utah mining expert who has been examining properties in western Nevada and Esmeralda counties, departed from Austin Monday for Salt Lake City. Mr. Murphy says the two counties are very rich in minerals.

REPORTS FORWARDED.

Auditor Shearer and Treasurer Bowd have completed their reports and forwarded them to the State authorities at Carson City. Washoe's donation to the State Treasury will be something over \$21,471. A good little sum in itself.

JUSTICE COURT.

Today was Indian day in the Justice Court, and His Honor sentenced Indian Billy, Carson, Peggy and Mahala Toney each to forty days in the county jail for drinking too much fire water.

An Exact Likeness

The greatest trouble most photographers experience is getting an EXACT LIKENESS. Here is where modern appliances come to the rescue. THE RIVERSIDE STUDIO is the most up-to-date on the Pacific Coast. The fixtures are all MODERN and none but EXPERIENCED ARTISTS are employed. You can rest assured that if your photograph work is done at the Riverside Studio it will be finished in an artistic manner.

IT IS NEEDLESS TO SAY

That everybody uses groceries. However, many of them do not know that most of their food is adulterated by scheming manufacturers. Such concern do not get our trade. Our prices are as low as GOOD GROCERIES are sold for

THE OFFICIAL BALLOT.
This ballot may be counted for an many votes as the number indicated in the space at the left of the word Votes, but each vote must be accompanied by five cents.
The expenses, dress etc. of the selected Queen, will of course be paid by the committee and she will be given a grand reception in addition.
The lady receiving the highest number of votes in the State will be declared elected Queen of the Carnival, and the highest in each county will be made of honor.
There will be plenty of rivalry and Reno says she is going to name the Queen. Reno has any number of handsome women who would certainly bear the occasion.

Official Ballot

For Queen of the Carson City Carnival and Street Fair, Carson City, Nevada, July 3, 4, 5, 1901.

..... Votes for

Send this ballot with five cents for each vote to Carnival Queen Committee, Carson. Contest closes 9 p. m. June 25, 1901.

Many Things Are Meant

By many dealers who claim to handle groceries. When they advertise Good Groceries, no mention is made of PRICE. When price is mentioned QUALITY IS OVERLOOKED. Again, sometimes they dwell on the virtues of a LARGE STOCK. In this case no claim is made to carrying FRESH GOODS.

We Preach the Three Main Virtues of Groceries—

Quality Quantity Price

They are mentioned in their regular order and the happy combination is causing hosts of pleasure patrons at our store.
